Viewpoint

Could the identification of subclinical atherosclerosis offer an alternative to the mass drug treatment of hypercholesterolemia?

A. Simon, J. Levenson (France)

245

Short communication

Identification of the homozygous missense mutation in the lecithin:cholesterol-acyltransferase (LCAT) gene, causing LCAT familial deficiency in two French patients

I. Dorval, P. Jezequel, C. Dubourg, B. Chauvel, P. Le Pogamp, J.-Y. Le Gall (France)
